Docket No. 98N-1265

Food and Drug Administration 4 '99 APR -5 AM 10:53

Rockville, MD. 20857

10PPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular,
10BJECT to the definition of "inordinate amount" which restricts the availability
and the right to obtain medically necessary compounded medications by limiting
the number of prescriptions that can be shipped across state lines from specialized
compounding pharmacies

COMMENTS: My compounded natural prescription I
receive from out of state for Hormone Replacement
Therapy alleviates my symptoms in a much easier
and healthier way than the Pharmaceutical Company's
product I was using. I feel at this point it is the
only type of H.H.T. I will use successfully. I object
to the definition of "Inordinate Amount" contained in
the M.O.U. This limitation could compromise my quality
of life by restricting my ability to obtain medication
my doctor has prescribed for me. These specialty
compounds are not available from commercial pharmaceutical
manufacturers nor my local pharmacies.
